Diving with Nautilus has been very exciting, even though the weather has not been much to be desired, the visibility has been amazing with most of our dive site have 20 plus mtrs and the fish life is something to write home about.

Our night dives on Twin Bommies has been a delight for everyone that has dived it, we have a resident Turtle that comes to check everyone out and two very large Spanish Dancers that have been putting on a great show.

Twin Bommies during the day not only is great for photographers and Discover Scuba Dives but the divers have been blessed with the visited on a regular bases by a very friendly Dugong (Sea Cow). And we can't forget to mention Bob the Red Bass, he is always there to welcome our divers on there arrival, he is always very polite making sure that everyone boards Cowrie at the end of there dive.

Wreck diving the Star of Russia, Semle and Konanda all have something different to offer, The Star of Russia being a beautiful old lady that never fails to amaze people when they see her appear at approx 7mtrs, with large Bat Fish to always make you feel welcome, the information booklet that we have on Cowrie on the history of the Star is a must read.

The Semle has been giving our divers that are heading up to the President Coolidge in Santo a great kick start to some deep diving. The visibility has be fantastic with 35 to 40mtrs.

A very romantic diver discovered that the Konanda at 20mtrs on the deck is a great place to propose to his girlfriend, with the abundance of fish life and Nudibranch that were also there to watch her accept.

Not long after the Konanda proposal there was another romantic proposal on Neville's Surprise with the lucky lady coming face to face with a rather large banner at the 6mtr safety bar asking her for her hand in marriage and of course she accepted.

So next time you are in Port Vila call in and has a chat with our friendly staff, we have a great dive team who are always willing to take our guest out for a great dive, we have three very experience Instructors with us at the moment, they are Thomas Bong being Vanuatu's 1st Ni-Vanuatu Instructor, Deb Houser and Peter Wallace who have may years of experience between them, Jim Reikem Divemaster and a few other interesting characters.
