Option A

Tranquility is a Dive Base and Resort with Outdoors and Eco Tourism activities including swimming, snorkeling, Reef-walking, Scuba Diving, Canoeing, Hiking, Cave Exploring or just relaxing on our sunny beaches. Accommodation is island style thatched bungalows on the waters edge, each with their own flush toilets and hot and cold showers. The birds wake you in the morning and you fall asleep to the soft sound of the water lapping the shore. The Resort also has a Turtle Sanctuary. This project has been developed to raise and release baby Hawksbill turtles. The utility systems of the island are based on Eco Tourism style with Solar Power and Biological Waste Disposal Systems. The stay at Tranquility works out to 6,500Vt per person per night and is a bit Robinson Crusoe. Price **excludes** soft and alcoholic drinks however we can take our own.

Option B

Finally after 6 years, the doors to Kakula Island have finally opened. Although not on the original business plan (sorry – no Tom Cruises or Halle Berry on the beach at the moment), they have conducted a soft opening of 8 rooms at the Island Lodge.

Each room was full facilities, including ceiling fans, air conditioners, TV and DVD, on-suite bathrooms, mini bar (option), refrigerators and tea/coffee service. We are confident that we are one of the few resorts that offer full facilities outside that of Port Vila, and excellent comfort for guests. Price **excludes** soft and alcoholic drinks however we can take our own. Accommodation, breakfast and dinner is 9,000Vt per person per night.
