[Deep Sea Fishing Adventures In Vanuatu](#)

Looking for 4, 5 or 6 day fishing trip to one of the most amazing destinations in this part of the world. We have been fishing in this region of Vanuatu for 7 years now and have a wealth of experience in where to fish.

What we have been doing is a lot of trips to our old favorite Epi and we now have some great accommodation at the Maskelyne Islands as well. We have been going to the Maskelyne Islands for about 6 year however the trip from Epi always ate into our day and limited the fishing time there. We now have an arrangement with a local and his village and have some very good accommodation available for our anglers. For those that have done our Epi adventure the accommodation is better than Sunset Bungalows in Lamien Bay.

What this has given us access to is some of the best popping and jigging spots you will get in the islands.

If you are expecting resort style accommodation these trips are not for you. If you don't like being woken up by chooks and maybe a barking dog this is not for you. If you want a full island adventure this is it.

[Check Out Our YouTube Channel For Trip Information](#)

For most people that come on these trips they usually spend the first and last day staying in our accommodation. We have also renovated our Bunk house and Studio apartment which for those that don't know are located right in the heart of town. If you are looking to do some day charters out of Port Vila this is just perfect, down the stairs and onto the boat.

Bunk House Accommodation

Studio Accommodation

How these trips work!!!!

Now for those of you that haven't done a trip like this with us we organise your pick up from the airport or you just hop into a taxi and come to our premises which is in the heart of Port Vila. You stay with us in the accommodation listed above. We normally leave about 5am the following day and fish north usually past a F.A.D or 2 then along the marlin highway fishing for marlin, wahoo, yellow fin, mahi-mahi and other species. This is an 80nm trip so you normally end up getting 10 to 12 fishing hours. We then anchor up at Lamén Island and stay with Chief Tasso at Sunset Bungalows.

Deep Sea Fishing In Vanuatu:

We have a couple of options. For those that want to catch wahoo, sail fish and do some jigging we head to Lapevi Volcano. This is a very active volcano that rises 1,500Ft above the ocean. This is a great option for trolling for toothy critters and we break the day up with a bit of jigging, popper casting and some dead and live baiting.

For those that are fanatical about jigging and popping we will take you to the Maskelyne Islands. Most days we see amazing doggy and G.T. action. The accommodation is very good for island style with the only complaint being the chooks wake a few people early.

We have been spending a night here and getting plenty of time fishing these waters. There is no reason that we can't stay a couple on nights if you are into this style of fishing. We then head back to Lamien Bay (Epi) trolling past and if we have time jigging on DeChaliac Bank which is a

sea mount that comes up to 100m from about 600. In years gone by this has been amazing fishing there however this last year it hasn't fired as well as expected so we have been spending less time there. As you can see we break up the days with a few different styles of fishing and we are flexible on where we go and what we fish for.

We always leave for home from Cheif Tasso's at Lamén Bay because if the wind has got up we can travel about 10 miles home in the lee of Epi Island adding to the comfort of the trip home.

Once again on the way home we normally see marlin, wahoo and mahi-mahi action.

Everything is provided in the cost of the charter. Top quality game fishing tackle, popping and jigging gear and stick bait gear, 100s of lures, bottled water a limited amount of soft drinks, (if you drink a bottle of bourbon a night and you need a crate of coke I recommend you bring a box or 2), The food on board the boat is fantastic and is all prepared by my better half Leanne and there is always a heap of snacks and fresh fruit. We also swap fish for fruit in the islands. The evening meals in the villages are very good and we bring along steaks, sausages and chops to add to the local produce so don't worry you wont loose any weight. Breakfasts are usually bacon and eggs and home made pancakes and for the first and last travel days cereal, fruit and tea and coffee are all included. For those flying in on weekends the bottle shops close here in Vanuatu at Saturday lunch time so if you let us know in advance we can order a pick up and alcohol for you and you can sort out payment when you arrive. We also don't recommend changing too much or any money at the airport currency exchange as the rate is usually not that good. We can organise money exchange for you when you get here if need be.

Most guests usually stay another day or two in our accommodation at the end of the fishing trip and at the completion of your fishing holiday we will drop you back to the airport.

Deep Sea Fishing In Vanuatu on Shogun

Now for those that don't know we do these trips on Shogun. Its a 34ft Blackwatch specifically designed for long range fishing adventure. We carry plenty of fuel and water and have lots of refrigeration. We can normally cool a box of beer at a time for those that enjoy a cool one. There is no refrigeration available on the islands so we set you up with an esky at night for anything you need kept cold. We also have on board phone and camera charging facilities. Our boats are also in survey and all our crew are fully accredited with the Vanuatu Maritime Authority.

Something worth checking before booking some operators in Vanuatu. We also have amazing phone coverage through out the island so those that need to stay in touch that it very doable. If you are concerned about international roaming fees I would suggest you pick up a Digicel pre-paid sim card. You can buy phone credit in the islands if need be.

As for number on these trips we have done up to 6 anglers. Its too many. Four is the most I think is good and workable and if you can afford it I think less numbers are even better. Two or three is ideal. You have far more room and rod time.

To read what others think about our operation go to:

As I mentioned earlier the price is due to go up for these trips so get in quick. The current price is 150,000VT for the boat per day and an additional \$40.00 to \$50.00 per person per night for accommodation depending where you choose to stay. To convert to you currency go here. [Currency Converter](#). Just type in 150,000 and find VTV or Ni-Vanuatu Vatu and then you country of origin click the arrow.

Don't forget we also do 3, 4, 8 hour and multiple days out of Port Vila on both Wild Blue and Shogun.
